

Michael Leung

Professional Statement

**Strengths**

- Programming in multiple languages (Python, Java, Javascript, C++)
- Complex problem solver
- Strong verbal communication skills

**Values**

- Protect users from the evolving threats of the internet
- Ensure that an organization's Cybersecurity is strong and widely trusted

I am an enthusiastic Cybersecurity learner who strives to make browsing the web safe and secure, from the evolving internet. I would like to hone my current programming and internet knowledge to combat potential cyber threats, ensuring sensitive information is protected for people and organizations alike. Additionally, I am eager to work with like-minded individuals to stay up to date with emerging Cybersecurity and technological trends.
